

## DEAR MENTOR,

We are proud to have you with us as a mentor for our mentoring sessions to challenge and boost the 10 carefully selected startups in Digital Chemistry & Digital Health during our 5-HT X-linker program by Digital Hub Mannheim/Ludwigshafen.

Starting on February 3, 2020 with a welcoming session, the startups will first receive pitch training on Monday. The mentoring sessions on Tuesday and Wednesday during the 4-days-program focus on their business model, market, product, team, financial and optionally legal structure. On the final day, Thursday February 6, the excellently prepared startups will have exclusive sessions with relevant corporates and pitch in front of high-class investors.

### YOUR ROLE AS MENTOR

As a mentor you will challenge the startups in 90 minutes sessions, up to three startups per day. Upfront the event, you will receive a more detailed information package about your personal agenda and the role description. We will also connect you with your counterpart mentor for the same subject.
